One of my all-time favorite games. Super fun, interesting, and deep!. Game works well. It would just need a modern interface, the rest is nice. Asked a refund just because it came with PC 2 which cannot be played due to the interface becoming foggy and unreadable.. Good ice cream trading game. Good old nostalgia. Brings back all the beautiful memories of the time i spent trying to beat this game as a kid. Got it on a sale for 3u20ac and it is absolutely worth it. Would not have bought it full price though - it is playable for free with a few minutes of your time to download everything you need.

Oh, and don't forget to download the "manual". It is actually a recipe book and you need at least several of the standart recipes on your menu to make your pizza restaurants work. Yea, that's copy protection the good old way.. This is one of my absolute favorite games from my childhood. I played this countless of hours when I was a kid, making weird pizzas, decorating lavish restaurants, and of course blowing up my competitors (and subsequently spending a lot of time in jail). But it wasn't until I played this as an adult that I figured out how advanced this game really is - and how hard it is when you play it honest (not trafficking guns).

Even though the game is over 20 years old it's still really fun to play, and I highly recommend it - though you really need to download the original recipe book to be able to play this - if you don't recreate the basic pizzas pretty much perfectly from the book you will have an extremely hard time getting customers. (This was a sort of piracy protection back in the day, if you only copied the game and didn't have the book you couldn't really play it). nostalgia and very addictive. i always knew it was complex when i was a kid playing the game but playing it again as an adult i never really did know how complex it really was. super fun re-learning everything from scratch and as an adult. i enjoy the game immensely, it's not just putting toppings on a pizza for me now -- i can finally bribe the mayor for awards. im fully deep in with the underworld now boys!
